Test Report

(Electronic Version)

№: P260100057

Sample Information	Sample Name	Shishimei - Running Series Pull-out Tissue			Tradema	Shishimei
	Model / Color Specification	155mmx175mm X5层			Grade	Qualified goods
	Manufacturer and Address	Dongguan Ant Paper Co., Ltd., Room 101, No. 201-1, Zhongtang Section, Beiwang Road, Zhongtang Town, Dongguan City			Production Date/Batch Number	2026-01-02
Client and Contact Information		Dongguan Ant Paper Co., Ltd., No. 201-1, Zhongtang Section, Beiwang Road, Zhongtang Town, Dongguan City			Test Type	Commissioned Testing
Sample Quantity		20 packs	Odd Numbers	ZY0126018073	How to do this?	Send samples
Sample Condition		intact	Sample Receipt Date	2026-01-07	Inspection Date	2026-01-16
Testing Basis		GB 15979-2024 "Hygiene Requirements for Disposable Hygienic Products" GB/T 20808-2022 "Tissue Paper"				
Judgment Basis		GB 15979-2024 "Hygiene Requirements for Disposable Hygienic Products" GB/T 20808-2022 "Paper Towels"				
Test Conclusion		See test results.

Test Report

№: P260100057

No.	Test Item	Unit Symbol	Standard requirements	Test Result	Individual evaluations	Testing Method
10		—	Production date and expiration date (shelf life) or batch number and expiration date:	Compliance with requirements		
		—	Storage Conditions (if necessary)	Meets requirements		
		—	Execution Standard Number;	Meets requirements		
		—	Product main raw material: Native wood pulp (fiber) Product labeled "Native wood pulp," Native non-wood pulp (fibers) Product labelled " Native grass pulp" or "Native bamboo pulp"" Or "primary sucrose pulp," etc., Primary mixed milk products are labelled as "primary wood pulp, primary bamboo pulp, (or primary grass pulp)"; etc. The moisturizing paper towels should also indicate the name of the main moisturizing ingredient added, with the "main moisturizing ingredients" as the guidance. The ingredients in the moisturizing component formulation that exceed 1.0% (quality score) are listed in the descending order of the content of each ingredient in the product formulation:	Meets requirements		
		—	Product Type: Soft tissue, wet strength tissue, dispersible tissue, moisturizing tissue; ordinary products may not specify product type;	Compliance with requirements		
		—	Product grade (only for ordinary type);	Compliance with requirements		
		—	Product specifications (size, number of layers);	Compliance with requirements		
		—	Net content (such as number of sheets, pages, pieces, groups);	Compliance with requirements		
		—	Product Conformity Mark:	Compliance with requirements		
11	Total bacterial colony count	CFU/g	≤200	1.4×10^2	Qualified	GB 15979-2024 (Appendix B.2)
12	Coliforms	—	Not detected	Not detected	Qualified	GB 15979-2024 (Appendix B.3)

Test Report

№: P260100057

No.	Test Item	Unit Symbol	Standard requirements	Test Result	Individual evaluations	Testing Method
13	Total number of fungal colonies	CFU/g	≤100	<5	Qualified	GB 15979-2024 (Appendix B.7)

Test Result Explanation	1. Testing Location: Songshan Lake Headquarters. 2. The term "Not Applicable" in the test results indicates that this sample does not require testing for this item. 3. Items 11–13 shall be judged according to GB 15979-2024; other items shall be judged according to GB/T 20808-2022. Physical Property Index Testing: 1. Sample pre-treatment for 24 hours under conditions of humidity (10–35)% RH and temperature not exceeding 40°C. 2. Before sample testing, balance the sample in a constant temperature and humidity chamber at (23.0±1.0)°C and (50.0±2.0)%RH for 4 hours. 3. Test environment temperature: 22.0°C~24.0°C, relative humidity: 48.0%RH~52.0%RH. 4. If the sample area (100mm x 100mm) cannot avoid the embossed area, this product does not need to be tested for softness. 5. The standard requirement column is for ordinary type (qualified product) standard requirements. 6. Items 2~3 and 6~7 were not pre-treated with temperature and humidity.
Laboratory Address	Matsuyama Lake Headquarters: No. 2 Industrial South Road, Dongguan, Guangdong Province
Notes	1. The report is invalid if it lacks signatures of the preparer, chief inspector, reviewer, and approver, or has been altered or not stamped with the official inspection and testing seal. 2. Without written approval from this institution, no re-production (except full text copying) of the test report is allowed. 3. For samples submitted for testing, the test data and results only prove compliance with the tested items. Without the consent of this institution, the client shall not use the test results for improper promotion. 4. The sample information for commissioned inspection is provided by the client; this institution assumes no responsibility for its authenticity or completeness. 5. After the report is modified, the issued electronic version and scanned copy of the report will not be recovered. The entrusting party is obligated to provide the modified report to relevant parties who used the original report. 6. Unless otherwise specified by the client, when making compliance statements with standards or specifications in this report, measurement uncertainty will not be considered (except where included in laws, regulations, standards, or specifications). 7. If the client does not raise any objections within the specified period from the date of receiving the report, it shall be deemed as acceptance of the test results. (Objection periods for various reports: 5 days for agricultural products, 7 days for food products, and 15 days for other industrial products)
